

THE ULTIMATE CONSTRUCTION CONE LASER

The *CL185* Cone Laser is fully self-leveling and designed for flat or conical applications up to -1.85%. Primarily used for sports fields with a conical fall, the *CL185* has a range of 1,000' (300m) diameter. Easily adjustable head makes it quick and easy to dial in cone, customized to your specific application to give you a perfect laser reference.

Package includes *CL185* laser, SR200 receiver, and carrying case. Custom conical references are also available.

**SR200
Detector**
